

# IRGS Membership Meeting

**Tuesday January 13, 2009**

**Featuring: Connie Bradish, Trained Scientist, College Professor and Passionate Genealogist!**

## **Recharge Your Blood Lines with DNA**

***Have you or someone in your family submitted your DNA? Bring a copy of the results to share with others. Together, we learn!***

**Abstract:** Finally, your IRGS program committee has found the right person to explain how DNA can be used in your family history research! Connie Bradish is more than a genealogist who understands DNA—she is trained scientist who is ardent about genealogy! How can your family history benefit by using DNA testing? What answers can DNA results give you? Even more, what questions arise from the reports? You will leave this meeting with your eyes wide open, a new understanding of DNA and genealogy, as well as energized about a new tool to meet your ancestors. This program is longer than a regular meeting: please plan on staying until 12:30PM to hear the entire lecture.

**About our Speaker:** Connie Bradish has a Masters Degree in Botany and taught college biology for 22 years. She has had a lifelong involvement in genealogy, is a popular teacher of several aspects of family history work, and has co-authored about forty articles in Everton's Genealogical Helper.

IRGS abbreviated Business Meeting at 9:30 AM, followed by a short break for genealogy/family history sharing and refreshments. The program begins promptly at 10:15AM ending at 12:15PM. (The speaker may call for a short break during this time)

All general meetings are held in the first floor large meeting room at the [Indian River County Main Library](#), 1600 21<sup>st</sup> St., Vero Beach, FL 32960.

Brought to you by the Program Committee of the IRGS, [www.irgs.org](http://www.irgs.org)
